

**5<sup>th</sup> International Disaster and Risk Conference**  
**'Integrative Risk Management -**  
**The role of Science, Technology & Practice'**  
24-28 August 2014 • Davos • Switzerland

## **SPECIAL CALL FOR ABSTRACTS**

# **DLDD**

## **Desertification, Land Degradation and Drought**

The International Disaster and Risk Conference IDRC Davos 2014 'Integrative Risk Management - The role of Science, Technology & Practice' will have a special focus on Desertification, Land Degradation and Drought (DLDD). After a successful call for abstracts, the Global Risk Forum GRF Davos is calling within a special call for abstracts on Desertification, Land Degradation and Drought issues around:

- DLDD & climate change nexus
- Economic and Social Assessment of DLDD
- Sustainable Land Management
- Drivers of change and resilience increase
- DLDD risk assessment & mapping

**Abstracts can be submitted for oral presentations, posters, sessions and workshops by 15. April 2014 online at <http://idrc.info/programme/call-for-abstracts/>**

IDRC Davos 2014 is organised in close cooperation with the United Nations Office for Disaster Risk Reduction (UNISDR). IDRC Davos 2014 will serve UNISDR as the science & technology

input platform for the post-2015 framework for Disaster Risk Reduction (HFA2) and provide recommendations towards the UN World Conference WCDRR in Sendai, Japan, in March 2015.
